Address _____							

Male Infertility Investigation:

- ☐ Semen Analysis (count, motility & morphology, IgG, IgA)
- ☐ Post-Ejaculate Urine Cytology (identification of spermatozoa)
- ☐ Semen Analysis and DNA Integrity Assay/DFI - DFI is not an OHIP insured test. Pay FlowLabs prior to testing.
- ☐ Semen Analysis and Aneuploidy - Aneuploidy is not an OHIP insured test. Pay FlowLabs prior to testing.

Post-vasectomy Testing:

- ☐ Smear for identification of spermatozoa

NOTE: All clinicians who require test results must be listed on the requisition by the ordering clinician at the time of submission, as FlowLabs cannot alter a requisition. If a clinician is not listed, results will only be released after receipt of a patient-signed Release of Information authorizing disclosure.

FlowLabs offers both on-site collection and sample drop-off, **by appointment only**. Appointments must be booked through the FlowLabs website at www.flowlabs.ca and only after patient registration. Please arrive 5 minutes early; patients who arrive more than 10 minutes late may not be accommodated.

Patients must abstain from ejaculation for no fewer than 2 and no more than 5 days prior to semen collection. If collection is performed through intercourse, non-toxic condoms must be used.

For questions, contact info@flowlabs.ca or 416-581-0000; responses are provided within 1–2 business days. Payment for any non-OHIP-covered tests and for approved non-toxic condoms is completed during the registration and ordering process.

I hereby certify that the tests ordered are not for registered in- or out-patients of a hospital.
